

Early Childhood Education

Helping young children access early learning and developmental support.

Program Overview

Early Childhood Education Care Coordination helps families with young children navigate early learning, developmental screenings, and supportive services during a critical stage of growth. In Los Angeles County, many families face barriers to accessing preschool, developmental assessments, and related supports. Through 211 LA, families receive guidance, referrals, and follow-up so children can access early education and intervention when it matters most.

Who This Program Serves

- Families with children ages 0–5
- Children with potential developmental concerns or delays
- Families navigating early education and support systems

Service Area: Los Angeles County

How People Connect to the Service

- Families contact 2-1-1 or are referred by partners
- Care coordinators complete screenings and explain options
- Referrals are made to early education programs and Regional Centers, School districts and local social supports.
- Follow-up helps families complete enrollment and access services

Funders & Partners

ECE Care Coordination is funded by the Los Angeles County Department of Children and Family Services and delivered in partnership with early education providers and community organizations.

ECE Care Coordination helps children build strong foundations for lifelong learning
