

# Stop the Hate (STH)

Prevention, education, and community-based hate response

## Program Overview

Stop the Hate focuses on preventing hate and supporting healing through education, outreach, and community engagement. In 2025, 211 LA supported Stop the Hate efforts by coordinating outreach, strengthening reporting pathways, and partnering with schools and community organizations to address bias before harm escalates.

As part of this work, we partner with Helpline Youth Counseling and collaborate on community-based efforts to educate students, families, and school staff, build awareness of available supports, and help connect individuals to appropriate resources when incidents occur.

## Who This Program Serves

- Students and youth
- Schools and educators
- Community members impacted by bias

**Service Area:** Los Angeles County

## How People Connect to the Service

- Outreach and education events in schools and communities
- Referrals through 2-1-1 when incidents occur
- Coordination with partner organizations for support

## Funders & Partners

Stop the Hate is funded by the California Department of Social Services and implemented in partnership with schools and community-based organizations.

**Stop the Hate** strengthens prevention and community resilience through education and connection.
